

Assignment: RPT3000 – Peer Review for Aidan Dunbar

Author: Ben Stearns

Date: 3-19-26

GitHub URL: <https://github.com/bstearns07/RPT3000>

Not much to say except awesome job by Aidan. Both of use pretty much had the assignment already done by lab day. That made things easy for us. We divided labor from there: I handled the repository and he took care of the README. He even caught a small spelling error on my part. He's a solid dude who seems to know his stuff. Anyone should feel confident with him as a partner.
